ELLINIKI TECHNODOMIKI ANEMOS S.A

Sector: Utilities-Alternative Electricity

Activity: Electricity generation from Renewable Sources (RES)

Outlook:

We initiate coverage of ELLINIKI TECHNODOMIKI ANEMOS S.A in view of the Company's upcoming IPO. We believe that ANEMOS operates in an interesting and dynamic sector (Renewables) with large potential for the domestic established players. We feel that ANEMOS still needs to prove itself with regards to profitability and establish a critical capacity to compete with its peer TERNA ENERGY (EV 1 Billion Euros , FV 7 Euros/Share, UV.) Overall, we will closely monitor ANEMOS and get involved at lower valuations.

Strengths:

ANEMOS S.A belongs to one of the most prominent Construction and Energy groups in Greece (ELLAKTOR) with a diversified business portfolio and proven track record.

Weaknesses:

Changes in fixed price/kWh tariffs charged to Electricity Providers (PPC) could have a negative impact in the Company's Revenues.

Potential delays in the licencing of wind parks could have a negative impact in the projected capacity of ANEMOS S.A and its Revenues.

The Portfolio of ANEMOS Energy Assets is based only in Greece and is fully exposed to various country risks .

Opportunities:

The strict environmentall policies primarilly from EU oblige the European Electricity Producers to reduce their exposure to Fossil fuels for the Energy Production and replace them with Energy coming from Renewables.

Threats

The complicated legal context for RES in Greece could delay the operation of already installed wind parks and impair its Capacity and Operation. Additionally, the Price/Watt is not secured and could change ANEMOS's Revenues and Margins.

Finally, we executed a peer to peer analysis using TERNA ENERGY's metrics: TERNA ENERGY's operating capacity is 580 MW and is valued at 415,5 Euro/Mw operating. Respectively, ANEMOS's expected Operating capacity in 2014 will reach 170.75 MW and could be valued at 71 million Euros or 0,86 Euros/Share.

TERNA ENERGY is trading at 13.33 x FY14 expected EPS. Accordingly, ANEMOS's price is calculated at 1.2 Euros/Share. As a result we derive a blended Fair Estimated Fair Value (DCF, MCAP/MW and Peer P/E) of 1.03 Euros/Share.
